

# MEMORANDUM

TO: Directors  
FROM: Robert Hubsher  
DATE: May 9, 2016  
SUBJECT: 2015 Direct Access Statistics

Attached to this memorandum is a copy of the 2015 Direct Access statistics for all member libraries. This four (4) page document provides detailed information about the circulation of library materials by all library users at all libraries. I have also attached a copy of Commissioner's Regulation 90.3, which outlines the Direct Access regulations (see yellow highlighted sections).

A copy of the current Direct Access plan (approved by DLD) is available at: <http://www.rcls.org/rclsmisc/DirectAccessPlan.pdf>.

**NOTE:** these Direct Access statistics do not include interlibrary loan.

You will see that all the columns are labelled with letters and the rows are labelled with numbers.

The rows represent the circulation at a particular library. As you move from left to right across the row you will see the circulation at a particular library by the cardholders from other member libraries.

As you move from the top to the bottom of a column you will see the circulation by cardholders from a particular library at other member libraries. The cell which is at the intersection of the row and column for a particular library shows the circulation of that library's cardholders at the library. For example, the cell in **row 3 column C** shows that Blauvelt users borrowed 27,201 items at Blauvelt. The cell in **row 4 column C** shows us that Chester cardholders borrowed 0 items at Blauvelt. The cell in **row 3 column E** shows that Blauvelt cardholders borrowed 1 item at Cornwall.

Please note that rows and columns that are shaded in grey represent branches at four (4) libraries. The statistics for the branches are shown for information purposes only. Each library with branches also has a row and a column that shows the total circulation for that library. Direct Access is based on the total circulation of a library. For example, **rows 15 and 16** represent the circulation at Haverstraw branches while **row 17** represents the total for Haverstraw. Similarly, **columns O and P** represent branch circulation, while **column Q** is the total circulation for the library. Grey rows and columns are not included in the summary statistics; only the rows and columns for the total circulation for these libraries are included.

**Row 59** (All CIRC BY LIB USERS) shows the total for each column, representing the total circulation by the cardholders of that library at every library.

**Row 60** (DA BY LIB USERS) shows the Direct Access borrowing for each library.

**Ramapo  
Catskill  
Library  
System**

. . . over

On page 4 (on the right side) you will find the summary information for each library.

**DA by Others (column BL)** = Direct Access by other library cardholders at a library

**CIRC by Locals at home (column BM)** = Circulation by local cardholders at their home library

**Total CIRC at Home (column BN)** = Total circulation from all users at the library

**DA by Locals (column BO)** = Direct Access borrowing by local users at other libraries (same as **Row 60**)

**Total CIRC by Locals (column BP)** = Total circulation by local users at all libraries (same as **Row 59**)

Using Blauvelt as an example:

1. Users from other libraries borrowed 11,957 items at Blauvelt
2. Blauvelt users borrowed 27,201 items at Blauvelt
3. Total circulation at Blauvelt was 39,158 items (total of the numbers in lines 1 and 2)
4. Blauvelt users borrowed 12,089 items at all other libraries (same as **row 60 column C**)
5. Blauvelt users borrowed a total of 39,290 at Blauvelt and other libraries (total of the numbers in lines 2 and 4)

Using Port Jervis as an example:

1. Users from other libraries borrowed 2,444 items at Port Jervis
2. Port Jervis users borrowed 52,427 items at Port Jervis
3. Total circulation at Port Jervis was 54,871 items (total of the numbers in lines 1 and 2)
4. Port Jervis users borrowed 13,069 items at all other libraries (same as **row 60 column C**)
5. Port Jervis users borrowed a total of 65,496 at Port Jervis and other libraries (total of the numbers in lines 2 and 4)

The boxes on the far right side of page 4 focus on the libraries that currently have Direct Access restrictions in place - Haverstraw (on Finkelstein users) and Suffern (on Finkelstein users).

To calculate the percentage of Direct Access at your library by the borrows of another library you need to know the total circulation at your library, the total circulation at your library by the borrows of a specific library and the total circulation by your borrows at that library.

Using the example of the Finkelstein Direct Access at Haverstraw (page 4):

1. Total circulation at Haverstraw was 233,049 (**row 17 column BN**)
2. Total circulation by Finkelstein borrowers at Haverstraw was 31,658 (**row 17 column AP**)
3. Total circulation by Haverstraw borrowers at Finkelstein was 3,294 (**row 40 column Q**)
4. The net circulation by Finkelstein borrowers at Haverstraw was 28,364 (subtract number in line 3 from the number in line 2)
5. The percentage of net Direct access by Finkelstein borrowers at Haverstraw was 12.17% (divide number in line 4 by the number in line 1)

Please do not hesitate to contact me if you have any questions.
