PREFACE

Thank you to the member libraries for their cooperation in the preparation of the 2019 Statistics. The statistics published in this document are compiled from the information provided in New York State Annual Reports completed by the member libraries in February. All of the data in this publication is available to the public, as the New York State Annual Reports are public documents. We hope the data and format are useful resources for preparing budgets, educating community members and elected officials about their local library and the great investment they are for the community they serve.

In 2019, an eight year history of declining circulation was reversed. The 2019 circulation increased by 306,377 items (6.83%) compared to 2018 (page 22.) This increase is a result of automatic renewals and the continued explosive increase in total E-Content usage. E-Content saw a 33.33% increase (page 23.)

The 2019 year also saw an increase in Program attendance of 8,688 (2.36%) compared to 2018 (page 7). This is slightly less than the 2.96% increase in 2018.

More than half of the community members in the RCLS service area have a library card; however, we saw a decrease of 528 card holders system-wide. The number of library visits also dropped system-wide by 57,747 or 1.3%.

NOTE: The method used to calculate averages and mediums is based only on the data from libraries which report for these items. There are several categories in which not all libraries report data; for example (2.8) Uncataloged Books or (8.7) Branch Hours. For item (2.8) Uncataloged Books, only 21 libraries circulate uncataloged books and for item (8.7) Branch Hours, just four libraries have one or more branches. *The averages and mediums for these two items are based on the number of libraries reporting, not all libraries.*
